

Agenda Item 9.4

Hi there,

I contacted the Stagecoach team regarding Newbridge Bus stop and they asked me to contact the local council regarding the following:

My concern is that Newbridge Bus Stop (or Langford Lane Stop) is not illuminated and especially in this period of the year when it gets dark earlier this can be confusing for the bus drivers. I once requested a stop to the aforementioned bus stop and the bus driver didn't notice the bus stop so I had to get down to the next stop and walk back (being very dark outside).

Therefore lighting, a bench and a shelter would benefit greatly the passengers and it won't create any confusion for the bus drivers in future.

Thanks in advance for your time and consideration.

Kindest regards,
