## 8.8. Adventure Playground Refurbishment Working Group report.

The Chairman reported meeting with the Working Group and discussed at length project progression, survey requirements and viable sources of additional funding.

It was agreed a survey via Survey Monkey would provide an indication of support for different play features as part of the Adventure Playground refurbishment, it would not be sufficiently robust to substantiate major funding bids should the refurbishment proposals exceed the likely Section 106 funding availability. It was felt the parish council was responsible to ensure the Section 106's outcomes targeted all age ranges.

The clerk suggested council agreed to adopt a phased approach:-

- 1) Play equipment to refurbish the existing "skate ramps area" and "swings/outdoor gym areas" of the Adventure Playground. The parish council could progress this in accordance with its obligation to provide play equipment in parallel.
- 2) A Feasibility Study into the viability of a new skatepark located in place of the existing BMX track.
- (1) and (2) would be informed by the Survey monkey survey, residents could be consulted on tenders received to ascertain the preferred option(s).

Cllr Yabsley left the meeting.

Cllr Dorow reminded councillors of his request to be considered for joining the Working Group. The Chairman outlined constraints related to the Government's Covid regulations "Rule of Six" resulting in a current maximum of six members.
