Dear Olivia

Thanks for your email. Yes you are quite right. The red edging is the area that the committee have indicated they would like to be provided as community space, and the blue area is the area that has been suggested as being suitable for housing.

Subject: Silvertown Parish Neighbourhood Plan - The Glebe, Church Road, Silvertown

Dear Mr Stracey

Further to your letter of the 3rd October (Ref: RQS.77126.1) the Neighbourhood Plan committee have met this morning and discussed the various points. Before we go further, we need to clarify that there is an error in your letter in referring to the plan. On Page 2 you mention the 'southern' part of the site edged red is designated for housing. The area I believe (*name redacted*) is considering for development, in consultation with ourselves and the wishes of the parishioners during consultations, is indeed the southern area, but edged in **blue not red**, be designated for development, with the northern area edged **red not blue**, which is just below the Berry, designated for leisure.

Please would you confirm that this is the case. We appreciate your point about defining the areas at this time.

I understand (*name redacted*) does not have an email, so I shall be putting a copy of this email through his door today.

Yours sincerely

Olivia Kennard

Chairman to the Silvertown Parish Neighbourhood Plan Committee
