

# **NEWTON ST CYRES PARISH COUNCIL**

## **COMMUNITY ENGAGEMENT POLICY**

**Newton St Cyres Parish Council**

**Reviewed: June 2026**

### **Introduction**

Newton St Cyres Parish Council's community engagement strategy brings together all engagement activities into one overarching strategy aiming to ensure better co-ordination with all communities within the geographical area of Newton St Cyres parish based on our belief that:

- All people within Newton St Cyres community should be involved in the decisions that affect them
- All people within Newton St Cyres community deserve high-quality public services, shaped around their needs
- Parish council policies and strategies should reflect local priorities, requirements and aspirations

This community engagement strategy recognises the diversity of our community, the importance of community capacity building and the need to provide appropriate opportunities for local people and the community to participate at whatever level they wish to influence service delivery, decision making and policy development.

This updated version incorporates relevant priorities from Devon County Council and Mid Devon District Council, including inclusive participation, digital accessibility, climate action, and strengthened partnership working.

### **Newton St Cyres Parish Council's Vision**

This strategy supports the council's vision of Newton St Cyres as:

- A parish that protects the outstandingly beautiful environment in which it is situated but is brave enough to embrace the best of what the modern world has to offer
- A lifestyle that benefits from improving the living standards of its people
- A community that enjoys a safe, secure and healthy way of life
- A caring community that provides for all its age groups
- A community that takes every opportunity to help itself

- In the face of changes to the traditional industries of tourism and agriculture, an outward-looking community adopting new activities to sustain the economic viability of the area

#### **This vision now also reflects:**

- Devon County Council's *Community Vision for Devon*, Mid Devon District Council's *Corporate Plan* and *Climate Strategy*, Devon's *Local Nature Recovery Strategy*, Local resilience and wellbeing priorities across Mid Devon

It provides a focus for all engagement activities, policies and processes to align with the council's objectives to create an improved quality of life by working with people and partners, devolving decision-making and empowering individuals and communities to contribute and influence services.

#### **What is the overall aim of the Community Engagement Strategy?**

This Community Engagement Strategy aims to support strong, active and inclusive communities, who are informed and involved in decision-making and enable us to improve public services to enhance quality of life across Newton St Cyres Parish.

This includes ensuring that engagement is accessible, transparent, climate-aware, and aligned with DCC and MDDC engagement frameworks.

- **strong communities**, who can form and sustain their own organisations, bringing people together to deal with their common concerns
- **active communities**, where people are supported to improve quality of life in their own communities
- **inclusive communities**, where all sections of the community feel they have opportunities to be involved in decision-making and influence public services

#### **What are our objectives?**

The objectives below identify how we can contribute to the Council's vision and ensure that the Community Engagement Strategy delivers an effective and coordinated approach to community engagement for the benefit of all people and the diverse communities of Newton St Cyres Parish.

- **strengthen, develop and sustain opportunities** for local people and groups to influence what happens in their communities
- provide opportunities for communities to **shape and influence** the development and delivery of quality services and policies that reflect local needs and priorities

- **manage and coordinate** engagement activities to ensure consistency, quality and partner participation and avoid duplication
- ensure that community engagement activities **provide opportunities** for participation for all sections of the community, particularly people and groups that are often missed out of community engagement activities
- **Ensuring feedback loops are clear, timely and accessible.** Listen to communities and ensure **feedback** to participants about the outcomes of consultation and engagement
  - provide **variety and flexibility and choice** in community engagement activities
  - listen and learn from our own and others' experience and share community engagement skills and knowledge of putting the citizen at the heart of decision-making.

### How will we achieve the objectives?

Detailed consideration will be given to all projects, proposals and policies to ensure we achieve our objectives set out above. Such decisions will be continually monitored and reviewed to ensure they are flexible and evolve to respond to the changing needs of our communities and community engagement activities.

#### Updated priorities include:

- **Ensuring all engagement complies with accessibility regulations:** improving **coordination** and governance of community engagement activities, by the development of protocols, toolkits and frameworks that reach out and involve the community as a whole
- **Using hybrid (in-person and digital) engagement methods:** maintain a website and Facebook page to engage consultation with the local community and wider interest community. To continue to provide a regular surgery to make councillors **more accessible and inclusive**. The surgery takes place on the second Saturday in each month at the Parish Hall

- Strengthening collaboration with DCC Highways, MDDC officers, NHS Devon, Police, and voluntary groups : **developing measures to harness** the views and opinions of people and groups who are often missed out of community engagement activities.
  - improve coordination with **partners** in engagement activities
  - raise awareness of **volunteering** opportunities in the parish
  - developing and enhancing **skills and expertise** in engagement and participation
  - participating in **local networks** to share knowledge and experience of community engagement activities in other areas
  - **rolling out** our community engagement strategy through councillors and others involved in community engagement activities.
  -
- Supporting community resilience planning
- Promoting volunteering opportunities using Devon Voluntary Action (DeVA [About Devon Voluntary Action](#)).

### Who is this strategy for?

We recognise that the council alone cannot achieve the ambitions in this strategy. Everyone has a part to play in helping to deliver the vision for Newton St Cyres Parish, particularly:

- all Newton St Cyres residents and those with second homes or who visit this area
- elected members, who play a key role in delivering the aims in this strategy
- parish clerk and any staff or volunteers – everyone is involved in community engagement activity in various forms
- community and voluntary sector organisations, who provide local services, work directly with local groups and organisations and with members of usually excluded groups and represent the views of their sectors

- partners, by working with other organisations and partnerships to make sure that services across the parish complement each other.

**This strategy also supports partnership working with:**

- **Devon County Council**
- **Mid Devon District Council**
- **NHS Devon**
- **Local schools**
- **Local businesses and landowners**

Newton St Cyres Parish Council seeks to work with other organisations, such as the police, local authorities, health service, and all groups outside and within the parish together with individuals from the community, voluntary and private sectors to make sure that engagement activities influence the future direction of the Parish.

We also know that we need to work with our local communities to encourage effective community engagement and ensure that processes are flexible and can be tailored to different groups and individuals in different areas of the Parish. We understand that sometimes people are reluctant to get involved and we will work with other partners to ensure that community engagement is as straightforward as possible and targeted appropriately.

**What has been achieved so far?**

An initial parish plan was produced in 2008... A second parish plan was produced in 2016... These plans have helped shape the direction of community development and engagement within the parish.

- **Parish Councillor Training.** We ensure that all Councillors have been on a training session to improve their knowledge of Council business
- **Community Development.** We produce an Annual Parish Report providing detailed information on all parish activities and useful contact details. We have facilitated the opening of a number of new clubs and groups in the parish.
- **Sausage Sizzler** event with Newton St Cyres Primary School, strengthening intergenerational community links
- **Summer Volunteer Event** at Sherwood House, promoting local volunteering and social connection

- **Access.** We have worked with landowners, residents and other partners to maintain a Permissive Path scheme in Newton St Cyres. In conjunction with the Ramblers Group we produced a Newton St Cyres Walks leaflet. In conjunction with the Friends of the Arboretum we re-opened the Arboretum to the public.
- **REC.** Working with the Recreation Ground Committee on the provision of new equipment for the village park, supporting active lifestyles and family wellbeing.
- **ALLOTMENTS.** The Parish Council continues its programme of improvements at the allotments, focusing on both safety and site maintenance. Recent work has included essential tree cutting to manage overgrowth and reduce risks to plot holders, including its support to community allotment.

### **Future Development.**

**ALLOTMENTS.** Discussions are ongoing regarding the creation of a safer access point to the site. Looking ahead, the Council plans to tackle several overgrown areas.

- Re- Launched of a Planning and Development Group to look at the future development of the parish
- Working with Higher Tier Council to secure a sustainable development plan for the village.

### **What do we mean by community engagement?**

- Community engagement can mean different things to different people. It may involve providing information, consulting on proposals, working in partnership, or enabling communities to lead their own initiatives. We have designed our Community Engagement Strategy to ensure that we can provide the most appropriate means for people and communities to be involved and give feedback. The various means of community engagement are:
- **Information** supports all types of community engagement and keeps people informed about decisions, services and local events. Information is available from the Parish Council website, Facebook page, parish noticeboards and the annual Parish Council report and newsletter.
- **Consultation** can be used when there is a decision to make about something or when there are a number of choices about the details (e.g. parish plan, questionnaires, newsletter feedback).

- **Attending meetings.** Parishioners are welcomed and encouraged to attend any parish council meeting, to put forward their concerns, suggestions or offer assistance within the 'Open Forum' section at the beginning and end of the meeting. Parishioners are also welcomed and encouraged to attend and take part in the Annual Parish Meeting. Parishioners can also put forward ideas and/or concerns at the monthly surgery.
- **Comment.** Everyone resident, visitor or partner is welcome to put forward their thoughts, ideas, concerns, criticisms or worries by telephone, email, or through the "contact us" form on the website and the parish council will consider and respond to such.
- **Ensuring compliance with DCC and MDDC consultation standards**
- **Providing accessible formats for all engagement activities**

Every type of involvement is important in the community engagement process and different methods will be used depending on the activity and circumstances. Sometimes it may be appropriate to inform or consult on some activities, while at other times we will seek to involve communities and individual in much greater depth. Our aim is to work towards devolved decision-making and supporting independent community initiatives wherever possible and to demonstrate where this type of community engagement activity can make genuine improvements to services.

- **FUTURE PLAN:** Use of digital tools such as online surveys and virtual meetings

### **What are our community engagement standards?**

We will continue to uphold the following standards:

- **Co-ordination & Partnership**
  - co-ordinate community engagement activities, with the parish council and partners, to avoid duplication and 'consultation fatigue', caused by too much consultation and too little action and feedback
  - provide leadership, to ensure that community engagement influences services and plans.

### **Access & Inclusion**

Ensuring everyone can participate. - ensure that we take into account particular needs and overcome any difficulties participants may have to enable them to participate

- involve communities that are usually excluded

- ensure that there is equal access to services, and that services meet the needs of all communities
- ensure adherence to health and safety regulations

**Clarity of Purpose** – being open about why we are engaging

only use community engagement and consultation processes when there is a real opportunity for people to influence and change decisions and services

- be open and honest about the aims of community engagement activity and what it hopes to achieve
- ensure that community engagement activities are realistic and that expectations are not raised unnecessarily
- have clear processes to feed back on community engagement activity and outcomes and give reasons if unable to deliver on expectations
- ensure participants know what they are agreeing to take part in and how the information will be used

**Confidentiality** – respecting personal information

- ensure awareness of confidentiality issues in community engagement activities, with regard to the Freedom of Information Act (Confidentiality issues will be adhered to, within the constraints of legislation)

**Integrity** – ensuring voluntary and respectful participation

- ensure that community engagement activities are voluntary, and that participants can withdraw at any time
- ensure that information obtained from community engagement activities is honestly interpreted
- ensure that the rights and dignity of all participants are always respected
- respect the rights of participants to decide how much to reveal about themselves
- consider activities, information and questions to ensure that they do not offend, cause distress or embarrassment

**Visibility** – ensuring those affected are aware of opportunities to engage.

- ensure that those most directly affected by plans and decisions are aware of opportunities for community engagement
- engage with key stakeholders and/or representative groups in advance of specific community engagement activities – to provide advance warning and to seek views on the most effective means of publicity

### **How will we measure our achievements?**

It is important for us to know whether we are achieving our vision for this Community Engagement Strategy, and we welcome any feedback and will openly and honestly consider such and feedback to any such communication.

This strategy will be reviewed every two years to ensure it remains relevant and effective, consideration given to any amendments suggested or required

. Progress will be monitored through:

- Annual Parish Report
- Participation levels and diversity of engagement
- Monitoring digital engagement reach
- Feedback from partners and residents

### **Who is responsible for this Community Engagement Strategy?**

This strategy supports co-ordinated community engagement and consultation activities – the key to successful implementation of the strategy is effective management and governance. The following structure provides a governance framework for this Community Engagement Strategy.

- **Elected Parish Councillors** will actively work to enhance community engagement activity in council decision-making.
- **Parish Clerk** is responsible for overseeing the development and implementation of the strategy.
- **Community Engagement Officer** – elected by the Parish Council and works with the Parish Clerk to ensure development and implementation of the Community Engagement Strategy.
- **Working collaboratively with DCC, MDDC, NHS Devon, Police, and voluntary sector partners**

**Date of last review: June 2026**
